Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Regarding claims 1-8, the allowability in combination with the other claimed features is because nowhere in the prior art is there a solid electrolytic capacitor having the joint surface of the anode lead frame having a first through hole therein; wherein the anode section is coupled to said anode lead frame having a first through hole there; wherein the anode section is coupled to the anode lead frame via the first through hole. Regarding claim 9, the allowability in combination with the other claimed features is nowhere in the prior art is there a solid electrolytic capacitor having an joint surface of the anode lead frame having a through hole therein; and resistance-welding the anode section to the anode lead frame via the through hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
